Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM  
THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1, 3-7, 10, 12-14 are rejected under 35 U.S.C. 102(a) as being anticipated by U.S. Patent No. 6,018,724 to Arent.

As per claim 1, Arent discloses these features (see at least the abstract).

As per claim 3, Arent discloses this feature (see abstract).

As per claims 4-6, 12 and 13, Arent discloses these limitations (col. 18, lines 35-37).

As per claims 7 and 14, Arent discloses this feature (col. 14, lines 13-17).

As per claim 10, Arent further discloses these limitations (abstract).

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2, 8, 9, 11, 15-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Arent in view of the examiner taking official notice.

As per claims 2 and 11, Arent does not specifically disclose this limitation. However, the examiner takes official notice that it is a well known feature to collect payment for a service. It would have been obvious to anyone having an ordinary level of skill in the art at the time the invention was made to have modified the method of Arent in order to include collecting payment since it provides a source of revenue for the service.

As per claim 8, the examiner takes official notice that it is well known in the art.

As per claims 9 and 15, Arent discloses a digital signature. It is further well known in the prior art to verify a digital signature with a public certificate.

As per claim 16, Arent discloses all of these features except the payment for service, which is treated in the reject of claims 2 and 11.

As per claim 17-20, again, the limitations disclosed in these claims are well known elements found in systems similar to this.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
